

Welcome to Outbreak! Bear with the glitches....

Use the arrow keys to move your player around!

Avoid all the enemies (anything rectangular = AVOID).

You have a certain amount of health, and once all your health is gone the game is over.

You can go to the store to upgrade your player

You can change players during the game with the 1, 2, 3, 4, and 5 keys.

Finally, use the wasd keys to shoot bullets at enemies that have a health bar on top of them

(Enemies without a health bar CANNOT be killed, only avoided)

In summary:

w = shoot bullets up a = shoot bullets left

s = shoot bullets down d = shoot bullets left

arrow keys: move player around

Space: Pause Game

1, 2, 3, 4, 5 number keys: switch players during the game
